	Order Nr.	Packed in dual tube, very high quality box.		19% MwSt. inkl. für Deutschland (Euro)	Export Price	
1	EML AD1-Mesh. With Au8 sockets. (Matched Pair) 1.5 Amps	110-025-48	AD1, the Queen of Triodes! With true wire mesh plate. Filament is 1.5 Amps, 4V.	Czech	952,00	800,00
2	EML AD1-Mesh. With UX4 sockets. (Matched Pair) 1.5 Amps	110-052-04	AD1-Mesh tube with UX4 base. Sometimes available. Please ask.	Czech	871,08	732,00
3	EML AZ4-Mesh (One tube)	110-045-67	High Capacitor load 4V rectifier, for amplifiers with AD1, 2A3m etc. True mesh, from metal wire.	Czech	386,75	325,00
4	EML PX4-Mesh (Matched Pair, UX4)	110-050-09	PX4 with UX4 base. Filament is 4V, 1.6 Amps	Czech	871,08	732,00
5	EML PX25 (Matched Pair, UX4)	110-056-26	PX25 with UX4 base. Filament is 4V, 2 Amps	Czech	871,08	732,00
6	EML RGN2504-Mesh (One tube)	110-054-76	Historic Socket type. Gold Pins. Filament is 4V, 2.5A Amps	NEW Czech	418,88	352,00
7	EML RS242 (Matched Pair)	110-242-39	Available End of September 2024	NEW Czech	837,76	704,00
5	EML 12B (Matched Pair)	110-053-39	14x Gain. Driver or Output tube. Matched pair, in gift box. Introduction price.	Czech	779,45	655,00
6	EML 20A-Mesh (Matched Pair)	110-002-66	20x Gain, medium power. Matched pair, in gift box.	Czech	871,08	732,00
7	EML 20B (Matched Pair)	110-003-19	20x Gain, high power. Matched pair, in gift box.	Czech	818,72	688,00
8	EML 20B-V4 (Matched Pair, Octal)	110-046-56	V4 =Center Tap version of 20B	Czech	857,99	721,00
8	EML 274A -Mesh (One tube)	110-027-45	True mesh, from woven wire. (so not Chinese fake mesh, which is punched plate only)	Czech	386,75	325,00
9	EML 274B -Mesh (One tube)	110-029-85	True mesh, from woven wire. (so not Chinese fake mesh, which is punched plate only)	Czech	386,75	325,00
10	EML 2A3-Mesh (Matched Pair)	110-008-14	Original specs of RCA 2A3. Matched pair, in gift box.	Czech	871,08	732,00
11	EML 2A3-Mesh-Globe (Matched Pair)	110-055-67	LIMITED EDITION. As long as stock lasts	Czech	910,35	765,00
12	EML 2A3-S (Matched Pair)	110-009-49	Can replace 15 Watt and 28 Watt 2A3 tubes. Matched pair, in gift box.	Czech	818,72	688,00
13	Quad matching for 2A3 Versions	127-006-76	For a Quad please order: Two pairs, plus this order number. Price is for the whole quad.	Czech	21,42	18,00
14	EML 300B (Matched Pair) WE Equivalent	110-010-76	Matched pair, in gift box. Solid plate tube. WE Equivalent.	Czech	818,72	688,00
15	EML 300BM+ (Matched Pair) WE Compatible	110-057-64	Matched pair, in gift box. Mesh wire tube. WE Compatible.	Czech	936,53	787,00
15	EML 300B25 Mesh (Matched Pair) 2A3 replacement.	110-051-43	Matched pair, in gift box. 2.5V, 2.5 Ampere heater. To upgrade 2A3 amplifiers. Will not work in 300B amplifier.	Czech	988,89	831,00
16	EML 300B-XLS (Matched Pair)	110-012-25	Matched Pair in gift box. The ultimate 300B!	Czech	949,62	798,00
17	EML 300B-XLS-V4 (Matched Pair, Octal)	110-043-66	V4 =Center Tap Connection version of 300B-XLS, with Gold Ceramic Octal base.	Czech	1028,16	864,00
18	EML 300B-Mesh (Matched Pair)	110-011-97	Matched pair, in gift box. Max plate dissipation 28 Watt. True mesh from woven wire.	Czech	988,89	831,00
19	EML 320B-XLS / 842 (Matched Pair)	110-015-19	High dynamics tube. Will also replace KR 842.	Czech	949,62	798,00
20	Quad matching for 300B Versions	127-007-95	For a Quad please order: Two pairs, plus this order number. Price is for the whole quad.	Czech	21,42	18,00
21	EML 30A (Matched Pair)	110-014-91	30x Gain, medium power. Matched pair, in gift box.	Czech	818,72	688,00
22	EML 45 (Matched Pair)	110-017-90	Direct RCA replacement. Solid Plate tubes, matched pair, in gift box.	Czech	772,31	649,00
23	EML 45B (Matched Pair)	110-048-94	RCA replacement + High Power. Solid Plate, matched pair, in gift box.	Czech	818,72	688,00
24	EML 45 Mesh (Matched Pair)	110-018-53	Mesh-Window. Direct 45 replacement. Matched pair, in gift box.	Czech	818,72	688,00
25	EML 50 (Matched Pair)	110-038-43	Direct replacement for RCA Type 50.	Czech	871,08	732,00
26	Quad matching for 45 Type Versions	127-008-35	For a Quad please order: Two pairs, plus this order number. Price is for the whole quad.	Czech	21,42	18,00

27	EML 520B-V2 (Matched Pair) 6.5Volt)	110-019-11	Can be build on order, for replacement purposes in old amplifiers.	Czech	inquire	inquire
28	EML 520B-V3 (Matched Pair, UX4, 5Volt)	110-020-84	V3 = "Long Plate" 52B, 5.0 Volt filament. Matched pair, in gift box.	Czech	1178,10	990,00
29	EML 520B-V4 (Matched Pair, Octal, 5Volt)	110-040-38	V4 = Center Tap version of EML520B with 5Volt filament	Czech	1218,56	1024,00
30	EML 1605 (Matched Pair, UX4, 5Volt)	110-030-91	Our ultimate power triode. Matched pair, in gift box.	Czech	1318,52	1108,00
31	EML 1605-V4 (Matched Pair, Octal, 5Volt)	110-044-85	V4 = Center Tap version of EML1605 with 5Volt filament	Czech	1355,41	1139,00
32	Quad matching for 520B or 1605	127-009-36	For a Quad please order: Two pairs, plus this order number. Price is for the whole quad.	Czech	21,42	18,00

198	GR150DA. NOS, OB. Original Funke part.	114-126-92	NOS. Original Box. For all Funke testers only GR150DA ("DA" version) can be used. Any other version is will have another load characteristic, and gives unprecise test result.	DGL	France	154,70	130,00

199	GU50 (EL152) , NOS, OB	114-043-09	NOS. Russia. Original Box. Excellent Audio pentode, similar to KT88, but 40Watt dissipation and Zirkonium Getter. (Datasheet on techcorner here). Ceramic Sockets available at low cost.		RUS	9,52	8,00
200	GZ34 / 5AR4 , NOS, WB, AEG branded.	114-182-76	NOS. Russia. AEG branded.		RUS	65,45	55,00
201	IN-9, NOS, WB	114-030-79	Neon Linear Bar graph. Cold cathode tube, needs no heater. Only two connections! Bar length depends on current. Sensitivity = 25mm/mA. Bar = 90mm. Very linear. Why use magic eyes when you can use this?!!		RUS	8,33	7,00
202	OC3 / VR105 Tungstram, NOS, OB	114-028-82	NOS Tungstram. 105 Volt/40mA. Works like Zener diode. Burns bright orange	Tungstram	HUN	20,23	17,00
203	OC3 / VR105 USA, NOS, OB	114-027-26	NOS. RCA, Zenith, and other USA brands. Boxes from 1945. 105 Volt/40mA. Works like Zener diode. Pictures: See NOS at website.	USA	USA	34,51	29,00
204	PV200-600, Tungstram. Only 1 pcs left.	125-005-51	NOS. PV200-600 ~ RGN2004.	Tungstram	HUN	65,45	55,00
204	RG62	114-146-50	NOS, 1400V, 250mA mono diode, with top cap. Exceptionally beautiful tube. 10% larger dimensions than 5U4G.	Telefunken	Germany	65,45	55,00
205	RG105, NOS, OB	114-130-96	NOS, TFK RGN105. Coke bottle glas. 2.5V heater, 4.5 Ampere. Extremley strong rectifier. Output max 250mA. Put heaters of two in series, and anodes in parallel, and you have a 500mA rectifier, at 5V heater by Telefunken. SECRET TIP!	Telefunken	Germany	48,79	41,00
205	RGN2504	114-130-96	Mullard. NOS. WB. With Mullard small printing	Mullard	England	154,70	130,00
206	UU7S	114-193-87	UU7S is electrically compatible to UU7, but octal based. This is a 4V rectifier, but.... see NOS pages, for how to wire an octal socket such that it works with UU7S and 5U4G at the same time. This gives ultimate flexibility with tube rolling. SECRET TIP!	TESLA	Czech	40,46	34,00
207	Amplitrex matching for single tubes. Listed above.	127-014-53	Computer Matching per tube, for single tubes, like EL34, EL84 and others. Incl Amplitrex report.			7,14	6,00
208	Amplitrex Matching for dual triodes. Listed above.	0-	Computer Matching per tube, for small double triodes, like ECC81, ECC88, and others. Incl Amplitrex report.

LUNDAHL

— TRANSFORMERS —

282

283

Important
Read this!

-->

With LUNDAHL, all plate chokes can be used as power supply chokes and vice versa. Our power supply chokes are built with audiophile-grade cores, delivering full-range audio performance.

Chokes with higher inductance have more windings, which increases their DC resistance. This added resistance helps protect the rectifiers and capacitors. While there may be a slight voltage drop due to the DC resistance, it also limits the current during cold start when the capacitors are empty and the choke becomes saturated. If you're concerned about power loss, we also offer chokes with lower resistance.

For easy selection, we've compiled all the options in a single table, first sorted by DC current and then by inductance (Henry).

284

285

LUNDAHL (Part1)		Order Nr.	Printed Circuit Boards for transformers	19% MwSt. Inkl. für Deutschland (Euro)	Export Price
286	EE08 Universal Board with Screw set	310-008-33	PCB EE08, gold plated. Screw set included. Universal PCB.	7,93	6,67
287	EE15 Primary Board (Option1)	310-015-88	PCB EE15, Gold plated. For Primary side of LL1620, LL1623, LL1627, LL9202. Works on all SE, PP and PPZ transformers. Works not on CFB transformers.	7,93	6,67

288	EE16 Secondary Board (Option2)	310-016-48	PCB EE16, Gold plated. For Secondary side of LL1620, LL1623, LL1627, LL9202. Works on all SE, PP, PPZ, CFB transformers. EE16 can select two impedances, with wire bridges, or Switch. (Switch is not included, but we can supply it). Attach EE17 board, to use external switch.		7,93	6,67
289	EE17 Switch Board with switch (Option3)	310-017-90	PCB EE17, Gold plated. Connects to Secondary Board. Selects two output impedances with external switch. Switch is included.		9,92	8,33
290	EE18 Secondary Board (Option2)	310-018-69	PCB EE18, Gold plated. For Secondary side of LL1620, LL1623, LL1627, LL9202. Works on all SE, PP, PPZ, CFB transformers. EE16 can select two impedances, with wire bridges, or Switch. (Switch is not included, but we can supply it). Attach EE19 board, to use external switch.		7,93	6,67
291	EE19 Switch Board with switch (Option3)	310-019-43	PCB EE19, Gold plated. Connects to EE18, to select two output impedances with external switch. Switch is included.		9,92	8,33
292	EE20 + Piano Switch +Screws (Option1)	310-020-71	PCB EE20, gold plated, Piano Switch, M3 Screw set.		11,90	10,00
293	EE20-LT	310-120-38	"Light" Version of EE20. Easier to use.		7,93	6,67
294	EE21. Gold plated Transformer Board with screw Set (Option1)	310-021-07	PCB EE21, for LL1674,1676,1681,1922,1930,1931,1933,1940, 1941,1943, 1961, 1963, 1971, 5402. Optional: Attach EE22 switch Board.		7,93	6,67
295	EE21-Light. Gold plated Transformer Board with screw Set (Option-LT)	310-121-62	PCB EE21-LT, for 1681,1931,1933, 1941,1943, 1961, 1963, 1971.		7,93	6,67
296	EE22 Switch Board with switch (Option2)	310-022-29	Optional to EE20, EE21, EE23. Gold plated. With toggle Switch.		9,92	8,33
297	EE23. Gold plated Transformer Board with screw Set (Option1)	310-023-93	PCB EE23, for LL1588,1592,1684,1690,1948,1949. Optional: Attach EE22 switch Board.		7,93	6,67
298	EE24. Transformer Board with screw Set	310-024-89	PCB EE24 for LL1527, LL1527-XL, LL1570, LL1570-XL, LL1540, LL1545, LL1578, LL1581-XL. With M3 Screw Set. Creates XLR input.		7,93	6,67
299	EE27. Universal Matrix Board.	310-027-74	PCB EE27, Gold plated. For LL1660, LL1660S, LL1667, LL1668, LL1671, LL1677, LL1692A, LL1689, LL2731, LL2745, LL2754, LL2763, LL2765, LL2766.		7,93	6,67
300	EE28. Universal Matrix Board.	310-028-79	PCB EE27, Gold plated. For LL1660, LL1660S, LL1667, LL1668, LL1671, LL1677, LL1692A, LL1689, LL2731, LL2745, LL2754, LL2763, LL2765, LL2766.		7,93	6,67
301	EE29. Universal Matrix Board.	310-029-85	PCB EE27, Gold plated. For LL2765		7,93	6,67
302	EE31. Board for LL1531, 1532, 1593	310-031-27	PCB EE32. With Green Drop Capacitor, Resistor, M3 Screw Set.		7,93	6,67
303	EE32 Secondary Board for LL1679	310-032-00	PCB EE32. For Secondary side of LL1679. Works on all SE, PP, PPZ, CFB transformers. Can select two impedances, with wire bridges, or Switch. (Switch is not included, but we can supply it). Attach EE17 board, to use external switch.		7,93	6,67
304	EE50 MC Kit, without transformers and housing.	310-050-09	EE50. STEREO Version. For large and small transformers. Kit with PCB and all parts, including RCA connectors, but without transformers and housing.		65,45	55,00
305	EE50 MC Kit, without connectors, transformers and housing.	310-150-52	Designed for both large and small transformers. Ideal for users who prefer to install their own connectors. Includes the PCB and all necessary components — Connectors, transformers, and housing are not included.		46,41	39,00
306	EE50 MC Board. Ready build, but without transformers and housing.	310-250-93	EE50. STEREO Version. For small and large transformers. Ready build, but without transformers and housing.		105,91	89,00
307	EE51 MC Board. Ready build, but without transformers and housing.	310-051-09	EE51. STEREO Version. For small transformers only. Ready build, but without transformers and housing.		105,91	89,00
308	EE63 Primary+Secondary Board	310-063-63	Fits to LL1663, 1664, 1682. Can do SE, PP and UL.		7,93	6,67
309	Replacement Switch for EE16...EE23. Silver plated, silver contacts internally	310-998-77	2 Positions. 9 contacts. Very low resistance. 0.005 Ohms tested by us.		4,64	3,90

310	LUNDAHL (Part2)	Order Nr.	MOVING Coil TRANSFORMERS		19% MwSt. Inkl. für Deutschland (Euro)	Export Price
311	LL1636 (2x shielded version of LL9206)	218-087-77	Moving Coil, or Microphone. 1+1+1+1 : 10+10. Double shielded.	Cobalt	110,88	93,18
312	LL1678	218-080-09	MC. 1:8 or 1:16 or 1:32. Shielded. Amorphous Cobalt Core	Cobalt	95,90	80,59
313	LL1678XL	218-500-86	Version of LL1678 with lower Copper restance	Cobalt	134,85	113,32
313	LL1681	218-081-84	MC. 1:13 or 1:26. Double shielded	Mu-Metal	131,02	110,11
314	LL1931	218-229-86	MC. 1:8 or 1:16. Amorphous Cobalt core, and Cardas™ 6N Wire.	Cobalt	283,48	238,22
315	LL1931-AG (Silver)	218-262-49	SILVER Wire version of LL1931		1196,64	1005,58
316	LL1933	218-220-95	MC. 1:8 or 1:16. Nickel core, and Cardas™ 6N Wire.	Nickel	222,02	186,58
317	LL1933-AG (Silver)	218-263-76	Version with pure SILVER Wire. (AG=Argentum)	Nickel	1123,07	943,76
318	LL1941	218-245-92	MC. 1:16 or 1:32. Amorphous Cobalt Core, and Cardas™ 6N Wire.	Cobalt	283,48	238,22
319	LL1941-AG (Silver)	218-264-92	SILVER Wire version of LL1941		1196,64	1005,58
320	LL1943	218-246-40	MC. 1:16 or 1:32. NICKEL core, and Cardas™ 6N Wire.	Nickel	222,14	186,68
321	LL1943-AG (Silver)	218-265-25	Version with pure SILVER Wire. (AG=Argentum)	Nickel	1123,22	943,88
322	LL1961	218-335-52	MC. 1:3.2 or 1:6.4 Amorphous Cobalt core, and Cardas™ 6N Wire.	Cobalt	294,51	247,49

323	LL1963	218-481-74	MC. 1:3.2 or 1:6.4 Mu-Metall core, and Cardas™ 6N Wire.	Cobalt	229,82	193,13
324	LL1971	218-336-90	MC. 1:12 or 1:24. Amorphous Cobalt Core, and Cardas™ 6N Wire.	Cobalt	283,48	238,22
325	LL4610-0.18H MATCHED PAIR	218-495-39	For the famous Stephany Bench "No-C" phono pre amp. See our techcorner		309,70	260,25
326	LL4610-1.8H MATCHED PAIR	218-496-91	For the famous Stephany Bench "No-C" phono pre amp. See our techcorner		269,67	226,61

418	LL1660-PP-S-AM (PCB EE27 optional)	218-180-58	AMORPHOUS, SHIELDED Version of LL1660-PP	Amorphous	Shielded	349,46	293,66
419	LL1660-PPZ (Parafeed) (PCB EE27 optional)	218-213-84	PARAFEED Version of LL1660	Parafeed	>580H	144,35	121,30
420	LL1660-PPZ-S. Parafeed, shielded. (PCB EE27 optional)	218-217-13	PARAFEED, SHIELDED Version of LL1660	Parafeed	>580H	172,25	144,75
421	LL1660-PPZ-AM (PCB EE27 optional)	218-314-91	PARAFEED, AMORPHOUS Version of LL1660	Amorphous	Parafeed	325,00	273,11
422	LL1671-020mA (PCB EE27 optional)	218-247-24	High-Current, or Line Output, 1+1+1+1 : 2+2	Universal	52H	138,72	116,57
423	LL1671-020mA-AM (PCB EE27 optional)	218-296-66	AMORPHOUS Version of LL1671-20mA	Amorphous		250,74	270,11
424	LL1671-030mA (PCB EE27 optional)	218-041-43	High-Current, or Line Output, 1+1+1+1 : 2+2	Universal	35H	138,72	116,57
425	LL1671-030mA-AM (PCB EE27 optional)	218-043-67	AMORPHOUS Version of LL1671-30mA	Amorphous		321,43	270,11
426	LL1671-PP (PCB EE27 optional)	218-044-98	High-Current, or Line Output, 1+1+1+1 : 2+2	Balanced	Universal	138,72	116,57
427	LL1671-PP-AM (PCB EE27 optional)	218-045-32	AMORPHOUS Version of LL1671-PP	Amorphous		321,43	270,11
428	LL1677-060mA (PCB EE27 optional)	218-046-81	Use 300B or 2A3 as interstage driver tube. Can be used 1:2 or 1:1.	60mA	32H	149,75	125,84
429	LL1677-060mA-AM (PCB EE27 optional)	218-047-90	AMORPHOUS Version of LL1677-60mA	Amorphous		330,52	277,75
430	LL1677-080mA (PCB EE27 optional)	218-048-98	Use 300B or 2A3 as interstage driver tube. Can be used 1:2 or 1:1.	80mA	24H	149,75	125,84
431	LL1677-080mA-AM (***) NICE PRICE :) As long as stock lasts.	218-049-48	AMORPHOUS Version of LL1677-80mA. Only ONE piece available for this price. Regular price is same as 60mA amorphous Version.	Amorphous		198,31	166,65
432	LL1689-09mA (PCB EE27 optional)	218-227-52	9+9 : 1+1+1+1. Interstage, low current tubes.	9mA	180H	159,48	134,02
433	LL1689-09mA-AM (PCB EE27 optional)	218-228-91	AMORPHOUS Version of LL1689-09mA	Amorphous	135H	340,15	285,84
434	LL1689-12mA (PCB EE27 optional)	218-501-09	9+9 : 1+1+1+1. Interstage, for C3g and other tubes	18mA	90H	159,48	134,02
435	LL1689-12mA-NC (PCB EE27 optional)	218-480-87	Nano-Crystalline Version of LL1689-12mA	12mA	Nan-Cryst	360,27	302,75

436	LL1689-18mA (PCB EE27 optional)	218-071-68	9+9 : 1+1+1+1. Interstage, for C3g and other tubes	18mA	90H	159,48	134,02
437	LL1689-18mA-AM (PCB EE27 optional)	218-072-98	AMORPHOUS Version of LL1689-18mA	Amorphous		340,15	285,84
438	LL1689-PP (PCB EE27 optional)	218-069-95	9+9 : 1+1+1+1. Interstage, for tube applications	Balanced	290H	159,48	134,02
439	LL1689-PP-AM (PCB EE27 optional)	218-070-47	AMORPHOUS Version of LL1689-PP	Amorphous		340,15	285,84
440	LL1689-PP-S-AM (PCB EE27 optional)	218-345-93	AMORPHOUS Version of LL1689-PP-S	Amorphous	Shielded	371,85	312,48
441	LL1689-PPZ (Parafeed) (PCB EE27 optional)	218-392-60	PARAFEED Version of LL1689	Parafeed	>580H	163,05	137,02
442	LL1692A-18mA (PCB EE27 optional)	218-204-93	Also Line Output. 1+1+1+1 : 1.75+1.75	18mA	24...95H	140,78	118,30
443	LL1692A-18mA-AM (PCB EE27 order)	218-223-91	AMORPHOUS Version of LL1692A-18mA	Amorphous		321,43	270,11
444	LL1692A-25mA (PCB EE27 optional)	218-233-74	Also Line Output. 1+1+1+1 : 1.75+1.75	25mA	17...68H	140,78	118,30
445	LL1692A-40mA (PCB EE27 optional)	218-234-29	Also Line Output. 1+1+1+1 : 1.75+1.75	40mA	11...18H	140,78	118,30
446	LL1692A-PP (PCB EE27 optional)	218-216-26	Also Line Output. 1+1+1+1 : 1.75+1.75	Balanced	210H	140,78	118,30
447	LL1692A-PP-AM (** NICE PRICE :)	218-205-68	AMORPHOUS Version of LL1692A-PP	Amorphous		192,86	162,07
448	LL2745-08mA (PCB EE27 optional)	218-291-43	Also Line Output, 1+1+1+1 : 2.8 + 2.8	8mA	200H	159,48	134,02
449	LL2745-10mA (PCB EE27 optional)	218-292-90	Also Line Output, 1+1+1+1 : 2.8 + 2.8	10mA	160H	159,48	134,02
450	LL2745-10mA-AM (PCB EE27 optional)	218-293-38	AMORPHOUS Version of LL2745-10mA	Amorphous		340,15	285,84
451	LL2745-18mA (PCB EE27 optional)	218-294-49	Also Line Output, 1+1+1+1 : 2.8 + 2.8	18mA	90H	159,48	134,02
452	LL2745-PP (PCB EE27 optional)	218-393-84	Also Line Output, 1+1+1+1 : 2.8 + 2.8	Balanced	290H	159,48	134,02
453	LL2746D-30mA	218-275-29	Interstage 1:2 for EML 20B or other.	30mA	45H	186,75	156,93
454	LL2753-25mA	218-342-65	Interstage 1:1 for EML 20A, 20B or other.	25mA	50H	186,75	156,93
455	LL2763-PP (PCB EE27 optional)	218-457-09	Interstage or Line Out, 1+1+1+1 : 4+4. For small tubes.			159,48	134,02
456	LL2763-07mA (PCB EE27 optional)	218-458-84	Interstage or Line Out, 1+1+1+1 : 4+4. For small tubes.	7mA	280H	159,48	134,02
457	LL2763-07mA-AM (PCB EE27 optional)	218-467-09	Interstage or Line Out, 1+1+1+1 : 4+4. For small tubes.	Amorphous	19% MWST. inkl. für		251,00
458	LL2793NC-12mA	218-460-09	Interstage or Line Out, 1+1+1+1 : 4+4. For small tubes.	7mA	110H	508,32	427,16
459	LL2793NC-PP	218-461-09	Interstage or Line Out, 1+1+1+1 : 4+4. For small tubes.	7mA	110H	508,32	427,16

460	LUNDAHL (Part7)	Order Nr.	SIGNAL INPUT				Export Price
461	LL1531	218-055-19	47k impedance, Audio Input.	1+1 : 2	0..10dBu	74,90	62,95

711	Tools, Parts, Solder	Order Nr.				19% MwSt. Inkl. für Deutschland (Euro)	Export Price
712	Solder Flux nr1. For Silver Solder.	611-006-77	Finest liquid flux, for Silver and normal solder. In 10ml glass bottle with brush. (Price per ml 0,60€)			7,14	6,00
713	Azimut Tool	620-005-73	For re-adjustung Azimut of Yamamoto headshells, if needed.			1,19	1,00
714	Wire Cutter (Side Cutter)	624-006-76	Side Cutter for Wires of Capacitors, Cables, etc.			3,57	
715	Tube Set for calibration. Full package.	624-014-55	6L6, 6SN7, 6SL7, leakage test tool, Guide to tube tester repair and calibration, Email support.			202,30	170,00
716	Book: Guide to tube tester repair and calibration.	624-020-77	Small book, color printed, in a binder.			65,45	55,00
717	Characterized tubes 6SN7 + 6SL7, for tube testers.	624-021-68	For calibrating testers. Full tube curves + test data + how to use info, on DVD. NOS Russian tubes.			77,35	65,00
718	Characterized tube 6L6, for tube testers.	624-022-19	For calibrating testers. Full tube curves + test data + how to use info, on DVD. NOS Russian tube.			49,98	42,00
719	Leakage Tester for tube testers.	624-023-25	Used to test and calibrate the "leakage test" of a tube tester. With 6 Page Manual on clor printing, about how to use it.			24,99	21,00
720	Bias King Pro, Digital Tube tester.	624-015-39	See tube testers collection on www.jacmusic.com for manual.			322,25	270,80
721	AVO Mk3, Mk4, External Anode Current Meter.	624-030-59	Additional connection for digital anode current measurement. Works simultaneously with the panel meter. Just plug it in and read it. Read description in the website for this. Ideal in combination with calibration. Sorry, no shipment from outside Europe.			386,75	325,00
722	AVO Mk3, Mk4, Calibration	624-034-62	Calibration of your Mk3, Mk4. Sorry, no shipment from outside Europe.			351,05	295,00
723	Meter, AVO Mk1...Mk4, CT160, overhaul.	624-023-25	Meter complete overhaul. Includes needle balancing, linearity adjustment, full scale adjustment, antistatic glass coating, loose glas, cracked case, and other small repairs if possible.			333,20	280,00
724	L3-3 scale modification	624-024-09	Modify the original scale to a three range, colored scale, including antistatic coating renewal of glass, plastic, and needle paint.			148,75	125,00
725	L3-3 All pdf tube test cards on DVD	624-031-67	CD contains: All jacmusic cards for tube tests, diagnose test, universal card in color, and lab cards. Russian factory cards, manuals, adresses for tools, etc.			91,63	77,00
726	L3-3 All pdf tube test cards as download	624-032-97	Above CD as download link by email.			89,25	75,00
727	Pin Straightener	699-004-33	For tubes like ECC83, 12AT7, etc. Original NOS Mullard tool. Limited stock.			9,52	8,00
728	Cable Binder (50 pcs)	699-003-90	Black cable binder. Lenth: 10cm, width 2,3mm, bag of 50pcs.			1,19	1,00
729	Pin Straightener	699-004-33	For tubes like ECC83, 12AT7, etc. Original NOS Mullard tool. Limited stock.			9,52	8,00

731	YAMAMOTO	Order Nr.	Finest HIFI Accesories from Japan			19% MwSt. Inkl. für Deutschland (Euro)	Export Price
732	HS-2, Cherry Wood. Yamamoto	420-003-39	Asada treated Cherry wood, head shell. 18x18x50 mm, 10.4 gram. Gold plated bronze accesories. Connections cables, with gold plated contacts included.			85,94	72,22
733	HS-4, Carbon Fiber. Yamamoto	420-091-39	Black Carbon Fiber, head shell. 18x18x50 mm, 10.7 gram. Gold plated bronze accesories. Connections cables, with gold plated contacts included.			171,48	144,10
734	YR-01 Upgrade cables for HS-Series	320-005-97	Upgrade 4x cable set for head shell. 6N Copper / Soft Teflon Litz and 24k gold plated bronze contacts. 6N meaning 6x Nine, like 99,9999% purity. Recommended upgrade for any headshell.			35,47	29,81

735	BT-1 Screw Set. Yamamoto	320-064-91	Titanium screw set 2.6mm for Headshells, various lengths included.			37,63	31,62
736	HS Azimut Tool. Yamamoto	620-005-73	For re-adjustung Azimut of Yamamoto headshells, if needed.			2,38	2,00
737	4Pin-Yamamoto-UX4-Silver	320-019-67	For: 300B, 2A3,45		Wiring + PCB	31,77	26,70
738	4Pin-Yamamoto-UV4-Gold-30mm	320-087-39	WE102, WE205. Chassis hole 30mm		Wiring + PCB	46,83	39,35
739	4Pin-Yamamoto-UV4-Gold-35mm	320-020-99	WE102, WE205. Chassis hole 35mm		Wiring + PCB	46,83	39,35
740	4Pin-Yamamoto-UV4-Silver	320-021-48	WE102, WE205.		Wiring + PCB	23,41	19,67
741	2x 4Pin. Yamamoto-Gold-UX4-B4	320-024-88	Has 2x4 holes, 4 of which are used. Use original WE tubes or Chinese, in one socket!		Wiring + PCB	66,89	56,21
742	2x 4Pin. Yamamoto-Gold-UX4-UX4	320-063-67	Has 2x4 holes, 4 of which are used. Allows two electrical circuits for one socket! Like 2A3 and 300B.		Wiring + PCB	66,89	56,21
743	7Pin-Yamamoto-6C33-Gold/Titanium	320-031-09	6C33 Only ONE Piece left.		Wiring + PCB	86,13	72,38
744	9Pin-Yamamoto-Magnoval-Gold	320-040-34	EL519, WE418A, WE436A, WE437A, 6D22S		Wiring + PCB	65,21	54,80
745	9Pin-Yamamoto-F2a German Post	320-082-76	F2a German post		Wiring + PCB	56,86	47,78
746	Yamamoto Plate Cap 9mm. 1pcs on stock	320-071-63	Plate Cap 9mm, Teflon-Gold. Yamamoto.			25,66	21,56
747	19mm Adapter for Noval Sockets	320-073-50	This base plate allows to mount the 19mm hole Yamamoto noval socket. 1) in any hole for an octal socket with 38mm screw distance. 2) In the hole for the Chinese noval socket (with 28mm screw distance)			16,72	14,05
748	EE80-30mm Air Vent. Adapter with LEDs	321-030-09	EE80-30. Air Ventilation adapter. For Yamamoto 30mm sockets, and other. Outside Dimensions: 58x58mm. Socket screw holes distance: 38.2mm. With 2x LEDs for tube current.			8,93	7,50
749	EE80-30mm. Air Vent. Yamamoto Style (no LEDs)	321-130-48	EE80-30. Air Ventilation adapter. For Yamamoto 30mm sockets, and other. Outside Dimensions: 58x58mm. Socket screw holes distance: 38.2mm. Without LEDs, Yamamoto Style.			7,74	6,50
750	Silicon Damper for Yamamoto Air Ventilation Adapter.	320-128-89	30...35mm sockets: use with Yamamoto air ventilation adapter. 9 pin or smaller, use directly, or use with Yamamoto Noval Base plate.			1,31	1,10
751	MGB2. Equipment Stands. 1pc.	320-072-56	Without any mechanical contact! Equipment floats on circular Neodeme magnets. Carries 0,9 ...3kg /One. Ebony Wood + Teflon + Neodeme circular magnets. Price for one.			58,52	49,18
752	PB20. Equipment Stands. 4pcs.	320-054-94	Black African Ebony wood. Pack of 4pcs. Parts (male) for equipment. 41 x 21mm			34,75	29,20
753	PB21. Equipment Stands. 4pcs.	320-055-55	Black African Ebony wood. Pack of 4pcs. Parts (female) to stand on. 41 x 14mm			31,27	26,28
754	PB22. Equipment Stands. 4pcs.	320-056-39	Striped South Asian Ebony wood. Pack of 4pcs.			6,95	5,84
755	PB23. Spike Receptacles of Ebony. 4pcs.	320-079-26	Black African Ebony wood. Pack of 4pcs. 20 x 59mm			62,55	52,56
756	VB-25. Equipment Stands. Complete set.	320-078-09	V-Grooved Equipment base. Package with 2 pcs female and 2pcs Mail. Outside dimension in millimeters: 35(W) x33(H) x250 (D)			62,71	52,70
757	Meter, Round. "VU". Yamamoto	320-068-68	VU meter. Sensitivity: 1.228V = 0dB. Internal Resistance = 26k.			56,76	47,70
758	Meter, Round. 050mA. Yamamoto	320-058-98	Series resistor = 50x Cathode Resistor+1855			56,76	47,70
759	Cinch/RCA Input, 1pc. Yamamoto	320-050-29	GOLD / TEFLON. Very high contact quality, Audio input connector. Chassis part, with separate ground connection. Color rings included. (red, white, grey, olive-green)			22,78	19,14

760

Chinese Tube Sockets**Order Nr.**
19% MwSt. Inkl. für Deutschland (Euro) **Export Price**

761	4Pin-UX4-Large. UX4 Ceramic	399-064-59	UX4. Large Size. Solder lugs with double holes + extra space for large components. For 300B, 2A3, 83, etc			2,14	1,80
762	4Pin-UX4-Large. Ceramic. Gold.	399-065-69	UX4. Large Size. Solder lugs with double holes + extra space for large components. For 300B, 2A3, 83, etc			3,69	3,10
763	4Pin UX4-Classic. Ceramic. Gold.	399-066-84	UX4. Classic design, like in old USA Amplifiers. Gold plated. For 300B, 2A3, 83, etc			2,50	2,10
764	4Pin-Nude UX4 base, Ceramic-Gold (part on the tube)	399-127-17	Repair part for tubes, or use as connector. Ceramic, Gold plated. The part on the glass tube.			5,95	5,00
765	4Pin-Nude UX4 base, Bakelite-Silver (part on the tube)	399-092-29	Repair part for tubes, or use as connector. Black material, Silver plated. The part on the glass tube.			5,95	5,00
766	4-5Pin /Eu. Ceramic.	399-069-93	B4/B5 Socket for RGN1064, PX25, etc. Ceramic flange.			2,26	1,90
767	4-5Pin /Eu. Ceramic. Gold.	399-070-27	B4/B5 Socket for RGN1064, PX25, etc. Ceramic flange. GOLD plated.			2,86	2,40
768	Box with 50pcs B4/B5 Gold, Ceramic	398-501-68	B4/B5 Socket for RGN1064, PX25, etc. Ceramic flange. GOLD plated.			41,65	35,00
769	7Pin-PCB-HQ. Ceramic	399-075-95	High Quality Version, for Printed Circuit Board. For 6AU6, 6AQ5, etc.			1,31	1,10
770	7Pin-Post. Ceramic. Silver	399-073-69	7 Pin German Post Socket.			5,36	4,50

771	7Pin-Post. Ceramic. Gold	399-074-58	7 Pin German Post Socket. GOLD plated.			7,02	5,90
772	7Pin-Wired-HQ. Ceramic. Gold	399-076-47	High Quality Version, for soldered wires. All metal parts are GOLD plated. (Also the flange is GOLD plated). For 6AU6, 6AQ5, etc.			2,26	1,90
773	7Pin (6C33). Ceramic. Gold	399-112-85	Very beautiful glazed version. Gold plated contacts. Specially for 6C33, with additional steel clamps on the contacts, for higher contact force.			5,59	4,70
774	8Pin. Loctal to Octal Adapter, only for 7N7 to 6SN7. Gold/Ceramic	399-125-92	Plug a 7N7 Loctal tube into this adapter. Then, use it like 6SN7 tube, in any amplifier. Most beautiful adapter you have ever seen. 24k gold plated Beryllium contacts for the 7N7. Octal side is standard gold plated. Works also for 7F7 to 6SL7. Made in our workshop GERMANY.			42,84	36,00
775	8Pin-LOCTAL-Wired, TEFLON, NOS, England. (not an "Octal" socket)	398-803-99	Ediswan England. Teflon LOCTAL NOS socket. Silver plated. Still Original packed. See: NOS SOCKETS, for pictures. We have also air ventilation adapters for this. Check menu under NOS Sockets.			36,89	31,00
776	8Pin-Octal-PCB. Ceramic. Cylinder Contacts.	399-077-68	Octal. Standard Version for Printed Circuit Board. For KT88, EL34, etc			0,83	0,70
777	8Pin-Octal-PCB-Gold-PTFE (Like Teflon)	399-102-43	Octal. Gold plated, with Beryllium contacts inside (having 10 contacts per pin). PTFE (Like Teflon) for Printed Circuit Board. For KT88, EL34, etc			17,85	15,00
778	8Pin-Octal-Wired. Ceramic-Gold. Large.	399-080-39	Octal. Large Size. Solder lugs with double holes + extra space. For small octal base, EL,34, KT90, KT66. Will not fit wide base like KT88, 6550.			4,76	4,00
779	8Pin-Octal-Wired-Gold. Cylinder contacts.	398-801-18	Octal. Cylinder Contacts. For soldered wires. All metal parts are GOLD plated. (Also the flange is GOLD plated). Very tight contact. For KT88, EL34, etc.			2,38	2,00
780	8Pin-Octal-Wired-Gold. Fork contacts.	398-802-33	Octal. Fork Contacts. For soldered wires. All metal parts are GOLD plated. (Also the flange is GOLD plated). Easy to replace tubes. For KT88, EL34, etc.			2,38	2,00
781	8Pin-P8/ AU8. NOS Bakelite Au-08.	399-093-77	NOS Bakelite socket, black color. For: AZ1, AD1, EL5, EL6, Etc. Very precise made.			7,14	6,00
782	8Pin-Nude-Octal-base (part on the tube)	399-091-43	Repair part for tubes, or use as connector. Brown material. The part on the glass tube.			3,57	3,00
783	8Pin-Nude-Octal-base-Gold (part on the tube)	399-126-71	Repair part for tubes, or use as connector. Brown material. The part on the glass tube.			7,14	6,00
784	9Pin-Magnoval-PCB. Ceramic	399-085-05	White Ceramic socket for PL504, etc. PCB Type.			2,02	1,70
785	9Pin-Magnoval-PCB. Gold. Ceramic	399-086-09	White Ceramic socket for PL504, etc. GOLD plated. PCB Type.			2,50	2,10
786	9Pin-Magnoval-Wired. Ceramic. Gold.	399-087-84	White Ceramic socket for PL504, etc. GOLD plated. For soldered wires.			2,50	2,10
787	9Pin-PCB. Ceramic.	399-081-92	Noval. Standard Ceramic socket, for Printed Circuit Board. For EL84, ECC81. etc			0,95	0,80
788	9Pin-PCB. Ceramic. Gold.	399-113-94	Noval. Gold, Standard Ceramic socket, for Printed Circuit Board. For EL84, ECC81. etc			1,31	1,10
789	9Pin-PCB-HQ. Ceramic.	399-082-79	Noval. High Quality Version, for Printed Circuit Board. For EL84, ECC81. etc			1,67	1,40
790	9Pin-PCB-HQ. Ceramic. Gold.	399-083-07	Noval. High Quality Version, gold plated, for Printed Circuit Board. For EL84, ECC81. etc			1,79	1,50
791	9Pin-Wired. Teflon. Gold. Like Yamamoto	398-901-01	Yamamoto look-alike socket. Variable mounting (0, 90, 180, 270 degrees)			20,71	17,40
792	9Pin-Wired-HQ. Ceramic. Gold.	399-084-36	Noval. High Quality version, for soldered wires. All metal parts are GOLD plated. (Also the flange is GOLD plated). For EL84, 12AX7, ECC81. Etc			2,26	1,90
793	Plate Cap 6.3mm. GOLD. Ceramic.	399-114-27	Ceramic Plate / Anode Cap 6.3mm diameter. GOLD plated. Tube like PL504			1,31	1,10
794	Plate Cap 9mm. GOLD Ceramic.	399-115-00	Ceramic Plate / Anode Cap 9mm diameter. GOLD plated. Tube like 807			1,31	1,10
795	Plate Cap 14mm. GOLD. Ceramic.	399-116-72	Ceramic Plate / Anode Cap 14mm diameter. GOLD plated. Tube like 813			1,55	1,30

Mundorf (1) Order Nr. tan d = 0.0002 bei 1kHz /1µF

801	Mundorf. Supreme 2,7µF 600VDC	323-045-65	Precisopn Cap. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 1Pcs Left.	30 x 56mm	10,42	8,76
802	Mundorf. Supreme 3,3µF 600VDC	323-046-36	Precisopn Cap. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 1Pcs Left.	30 x 56mm	11,38	9,56
803	Mundorf. Supreme 3,9µF 600VDC	323-047-19	Precisopn Cap. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 1Pcs Left.	30 x 56mm	12,80	10,76
804	Mundorf. Supreme 5,6µF 600VDC	323-049-86	Precisopn Cap. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 2Pcs Left.	36 x 56mm	16,61	13,96
805	Mundorf. Supreme 8,2µF 600VDC	323-051-51	Precisopn Cap. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 2Pcs Left.	36 x 106mm	21,37	17,96

806 **Mundorf SILVER-OIL (2)****Aluminium Case, inside are two Caps in series to get the high voltage**

807	Mundorf. Silver Oil 0,015µF 1000VDC	323-057-73	Silver foil. Oil Cap. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 4Pcs Left.	13 x 36mm	9,41	7,91
808	Mundorf. Silver Oil 0,033µF 1000VDC	323-059-89	Silver foil. Oil Cap. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 2Pcs Left.	13 x 36mm	9,41	7,91
809	Mundorf. Silver Oil 0,068µF 1000VDC	323-061-93	Silver foil. Oil Cap. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 2Pcs Left.	13 x 36mm	9,41	7,91
810	Mundorf. Silver Oil 0,82µF 1000VDC	323-069-78	Silver foil. Oil Cap. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 2Pcs Left.	31 x 42mm	16,83	14,14
811	Mundorf. Silver Oil 1,5µF 1000VDC	323-071-25	Silver foil. Oil Cap. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 2Pcs Left.	36 x 42mm	21,59	18,14
812	Mundorf. Silver Oil 1,8µF 1000VDC	323-072-09	Silver foil. Oil Cap. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 1Pcs Left.	41 x 57mm	21,59	18,14
813	Mundorf. Silver Oil 2,7µF 1000VDC	323-074-84	Silver foil. Oil Cap. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 6Pcs Left.	41 x 57mm	26,39	22,18
814	Mundorf. Silver Oil 3,3µF 1000VDC	323-075-19	Silver foil. Oil Cap. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 8Pcs Left.	41 x 57mm	28,80	24,20

815 **Mundorf SILVER-GOLD (3)****Order Nr. Aluminium Case, with two Caps in series.**

816	Mundorf. Silver Gold 0,01µF 1000VDC	323-082-71	99% Silv. 1% Gold. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 8Pcs Left.	17 x 36mm	13,00	10,93
817	Mundorf. Silver Gold 0,033µF 1000VDC	323-085-48	99% Silv. 1% Gold. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 4Pcs Left.	17 x 36mm	13,00	10,93
818	Mundorf. Silver Gold 0,047µF 1000VDC	323-086-91	99% Silv. 1% Gold. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 6Pcs Left.	17 x 36mm	13,00	10,93
819	Mundorf. Silver Gold 0,056µF 1000VDC	323-087-68	99% Silv. 1% Gold. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 7Pcs Left.	17 x 36mm	13,00	10,93
820	Mundorf. Silver Gold 0,068µF 1000VDC	323-088-24	99% Silv. 1% Gold. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 2Pcs Left.	17 x 36mm	13,00	10,93
821	Mundorf. Silver Gold 0,15µF 1000VDC	323-091-19	99% Silv. 1% Gold. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 6Pcs Left.	17 x 36mm	13,93	11,71
822	Mundorf. Silver Gold 0,68µF 1000VDC	323-096-84	99% Silv. 1% Gold. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 8Pcs Left.	26 x 41mm	23,99	20,16
823	Mundorf. Silver Gold 1,5µF 1000VDC	323-099-92	99% Silv. 1% Gold. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 6Pcs Left.	36 x 42mm	33,61	28,24
824	Mundorf. Silver Gold 2,2µF 1000VDC	323-101-92	99% Silv. 1% Gold. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 8Pcs Left.	36 x 56mm	38,41	32,28
825	Mundorf. Silver Gold 2,7µF 1000VDC	323-102-81	99% Silv. 1% Gold. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 6Pcs Left.	36 x 56mm	45,62	38,34
826	Mundorf. Silver Gold 3,3µF 1000VDC	323-103-79	99% Silv. 1% Gold. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 6Pcs Left.	41 x 57mm	52,84	44,40
827	Mundorf. Silver Gold 3,9µF 1000VDC	323-104-58	99% Silv. 1% Gold. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 6Pcs Left.	41 x 57mm	57,64	48,44
828	Mundorf. Silver Gold 4,7µF 1000VDC	323-105-94	99% Silv. 1% Gold. Tol. +/-2%. No Inductance. Metal case. SPECIAL SALES. We have only 4Pcs Left.	46 x 71mm	62,45	52,48
